ABOUT FACULTY

In 1974, in the faculty "Hydraulic Engineering Facilities" of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers opened the direction "Water Economy and its Management". Since 1976, this direction has become an independent faculty. From 2004 it has been called "Water Management and its Economy", since 2015 the faculty has been called "Water Management". On the basis of the Resolution of the President of the Republic of Uzbekistan on 24.05.2017. No. PP-3003 "On measures to radically improve the system of training engineering and technical personnel for the water sector", the faculty was renamed as Organization and management of water resources faculty.
